## “Tourism for All”

### Verified. Reliable. Detailed.

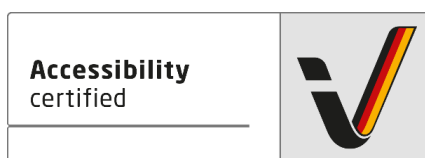

„Tourism for All“ is an information and rating system for accessible tourism throughout Germany. It provides detailed information for guests so they can determine if they can use and participate in tourism offers before booking them. As a result, they can select specific offers that are suitable for them.

The system is based on comprehensive criteria to ensure high cross-sectoral quality standards. They were developed in cooperation with members of the German Disability Council as well as tourism associations.

#### The logos:

The “**Information on Accessibility**” label indicates that detailed and verified information on accessibility for all groups of people is available.

The “**Accessibility certified**” label is based on “Information on Accessibility”. It means that additional quality criteria for certain groups of people are met partially or completely.

The “Accessibility certified” label is complemented by pictograms. They indicate the requirements the offers meet for the corresponding groups of people. Most people generally recognize and correctly identify the pictograms.

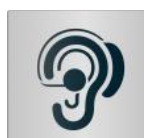

#### The pictograms:

People with walking disabilities

Wheelchair Users

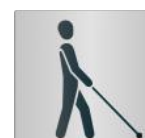

People with hearing impairment

Deaf people

People with visual impairments

Blind people

People with cognitive impairments

### The levels:

The "Accessibility certified" label is available in **two quality levels**:

"Accessibility certified: **partially accessible for wheelchair users**": The quality criteria are partially met for the corresponding group of people, i.e. the offer is partially accessible for wheelchair users. The "i" in the pictogram indicates that one might want to review the offer more closely to see if it meets all personal requirements.

"Accessibility certified: **accessible for wheelchair users**": The quality criteria are met for the corresponding group of people, i.e. the offer is accessible for wheelchair users.

**Tourism for All: The information and rating system on accessible tourism throughout Germany can be found in the following categories:**

- Accommodation facilities
- Gastronomy
- Trips and Shopping
- Leisure and Sport / Entertainment and Culture
